SUMMARY

- 3.6 years of professional experience in the IT industry and proficient in software development.
- Extensively worked on SDLC stages: requirements analysis, detailed design, coding, testing, code rework, and deployment.

SKILLS

Technical Skills	: Java 8+, Spring Boot, REST API, Spring Batch, Spring Data JPA, Hibernate, Microservices, Unit Testing (JUnit/ Mockito), JIRA, Agile, Object Oriented Programming(OOPs), Spring Security, Maven, Apache Tomcat (Embedded), JSON, Swagger, XML
Databases	: SQL (Oracle 19c/PostgreSQL/ MySQL), NoSQL (MongoDB)
IDE and tools	: Git, Eclipse, IntelliJ , VS Code, Postman, MySQL Workbench, SQL Developer, PgAdmin, GCP
Soft skills	: Communication, teamwork and collaboration, and copilot

WORK EXPERIENCE

Monocept Consulting Pvt. Ltd. | Software Engineer

July 2022 – Till Date

- Analyze project requirements and crafted Low-Level Designs (LLD) to meet client and project specifications.
- Developed software using Agile methodologies, ensuring timely and 90% efficient project execution.
- Designed and developed **RESTful APIs using Java 17 and Spring Boot 3.2.2** & utilizing **Swagger**, which makes testing 2 times faster and provides a user interface . used
- Managed version control efficiently using Git, with active involvement in committing and handling pull requests in both GitHub & GitLab. I dedicated 10 % of my capacity to code reviews.
- Executed primary (P0) test cases using Postman and authored J Unit 5 test cases, achieving and maintaining over 90% code coverage.
- Utilized SonarQube , Coverity Scan, and Mend (WhiteSource) tools to monitor and enhance code quality consistently. And ensure 0 bugs and code smells.
- Fostered collaboration and effective communication with QA testers to ensure optimal team performance and issue resolution

WSE Infratech Pvt. Ltd. | Software Intern

January 2022 – March 2022

- Worked on Spring Boot 2 and debugged the codes according to JIRA tickets and raised the PRs.

PROJECTS

ACM Project at NCR Corporation (Card Management System)

- Participated in the development of ACM, an enterprise-level card management system using Spring Boot.
- Implemented Generic Maker Checker features across 5+ services, ensuring robust transaction validation and security. Where Maker can do **CURD** operations in any service , Checker can approve the request to store it in DB.
- Report generation for issued cards, expired cards , any status changes, etc. Using **Spring Batch**. Where the user can set templates with the fields needed (header, footer, and body), and the report will generate with those fields in CSV or TXT format.

M-PRO Project at Max Life Insurance

- A central web application designed to assist agents in on-boarding customers efficiently and 10 times faster.

EDUCATION

Maulana Abul Kalam Azad University

2020-2022

- **M. Tech** in Information Technology with CGPA: 9.32

Adamas Institute of Technology

2015-2019

- **B. Tech** in Computer Science and Engineering with CGPA: 7.63
